

Select, combine and order - from anywhere in the world.

maxon motor's e-shop is being expanded.

You can search on shop.maxonmotor.com quickly and easily for a DC or EC motor, combine it either with a gearhead and control electronics, then order the drive system you require, conveniently with just one mouse click, wherever you are.

All catalog products (up to 49pcs per item) can be ordered from maxon motor directly through the online purchase channel. 24 hours a day, 365 days a year - and now from anywhere in the world. Brush and brushless DC motors and controllers can be purchased individually or as a system solution. Gearheads, sensors and brakes are also available in combination with motors.

All products ordered through the e-shop that are in stock (green light) are dispatched from the factory in Sachseln (Switzerland) within 24 hours on working days.

Users worldwide benefit from the following functions of the maxon motor e-shop:

- display of the full maxon motor modular system (DC and EC motors, gearheads, encoders, brakes, control electronics)
- download of technical data of all drive components in PDF format
- download of DXF and STEP files of all motors and gearheads
- current availability check
- price details for up to 49 items
- direct orders with a part number
- detailed overview of all items on order

maxon motor assures all e-shop users that their personal information will be handled on a strictly confidential and secure basis. All data and payment transactions are SSL-encrypted and therefore protected. Further information on data protection at maxon motor can be found in our Privacy Policy.
